

BLR 2604

Laser Long Range Barcode Scanner

- 300 ft (100 m) operational range
- Ergonomic design
- Audible & visible indicators

The BLR2604 is a component of the 2604 Serie. Its gun-shaped and protected form factor offer efficient use of the scanner in multiple environments.

The 2604 family is a class 1 product, this means barcodes can be transmitted up to 100 meters.

Thanks to its long range Scan engine, the BLR can read distant barcodes. It allows workers to scan items on the top shelf of a warehouse without having to move closer to the item. Therefore, it perfectly fits all applications in Transport and Logistics.

- Reading distance: up to 50 ft (6m)

SCAN ENGINE TYPICAL PERFORMANCE

General features

One click connectivity products:

Just switch on your scanner to get connected!

No data loss guarantee:

Barcodes are stored within internal memory until they are acknowledged by the application.

Auto Reconnection:

If you scan barcodes out of the radio range, they will be stored in memory and automatically downloaded when getting back into range.

One product, two modes:

- The scanner can be used in the Real Time Mode or Batch Mode.
- Real time mode will send barcodes while scanning.
- Batch mode will store barcodes on the scanner and the user will upload them when needed.

Intuitive user interface:

- Only one button to switch on, connect and scan barcodes
- Multi color led for connection and battery status
- Sound beeps for successful scanning.

Platforms compatibility:

Baracoda provides users with user-friendly software (BaracodaManager) and provides developers with state of the art APIs to ease the integration on the following mobile platforms:

- PC
- PPC 2002/2003; CE.NET; Palm OS
- Symbian (Mobile Phones)
- Most Bluetooth devices (printers, access points, ...)

Available accessory

Protective boot:

The protective boot for the 2604 Serie is made of ruggedised high density foam. It is made by two separate units - one covering the hood and the second covering the base of the handle of the scanner- linked together by an elastic rope. While the protective boot does add some bulk to the scanner, its shock protection value compensates for this size increase. The protective boot also offers a small ring that can be attached to a lanyard or a retractable badge reel. It is ideal for mobile workers who need a rugged product.
