

Barcode ActiveX & DLL

Developer's Toolkit Wasp ActiveX & DLL enables you to build bar codes into your custom software and database applications using Microsoft Access, FoxPro, Visual Basic, Visual C/C++, etc. Minimize your development cycle time and increase the value of your application by easily incorporating bar codes. The developer's toolkit includes two ActiveX controls and Bar Code Font and Bar Code Drawing DLLs.

Windows 9x, NT, 2000

Database Programming Languages.
Easily incorporate bar codes into Microsoft Access, FoxPro, etc. Example code is included to assist you in your development.

ActiveX Controls. Use the Wasp ActiveX Controls in your programming environment including Microsoft Visual C/C++, Microsoft Visual Basic, Delphi, PowerBuilder, etc. Simply drag & drop onto your design form.

Two Bar Code Libraries for the Price of One. Bar code Drawing and Bar Code Font libraries are included. Select the library best suited for your development environment.

ActiveX Controls

Database Programming Languages

Easily incorporate bar codes into Microsoft Access, FoxPro, etc. Example code is included to assist you in your development.

Two Bar Code Libraries

for the Price of One Bar code Drawing and Bar Code Font libraries are included. Select the library best suited for your development environment.

Features:

- Supports Code 39, UPC-A, UPC-E, EAN/JAN-8, EAN/JAN-13, Interleaved 2 of 5, Code 128, Codabar, Code 93, MSI Plessey, PostNet, (OCR-A, OCR-B and MICR are also included)
-  • Supports the most popular 2D bar codes —PDF417, DataMatrix, & Maxicode (with 2D option)
- Drawing ActiveX Control & DLL—allows the configuration of bar code attributes including the value, symbology, units of measure, position, size, wide-to-narrow ratio, checksum, rotation, magnification percentage, and color. The Drawing library also includes caption attributes including the font name, font size, style, alignment, and color
- Font ActiveX Control and DLL—translates an ASCII input string into an output string that can be displayed or printed in the appropriate bar code font. The Font library includes six TrueType fonts for each scalable bar code symbology (high, medium, and low resolutions, with and without the human readable caption)
- As an added feature, you can even bind both ActiveX controls to a database
- Save bar codes as a bitmap or metafile
- Royalty Free Developer's License Agreement—allows for free distribution of DLL for up to 12,000 units per calendar year
- Includes two ActiveX Controls: Bar Code Font and Bar Code Drawing
- Includes DLLs for Bar Code Font and Bar Code Drawing
